

# Mainca Lube MINERAL OILS

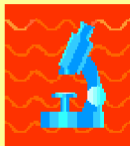

## PRO-TECH White Mineral Oil

*With MICRONOX Antibacterial Protection*

Mainca Lube **Pro-Tech** White Mineral Oil is a specially formulated **superior lubricating oil** recommended for use wherever potential food or beverage contact may occur. **Pro-Tech** provides an excellent film barrier to **facilitate equipment clean-up, prevent corrosion** and **minimize flash rust** while maintaining a USDA and FDA "H1" Food Grade Oil Rating for **incidental food contact**. In addition, with the proven benefit of our patented **MICRONOX** Antibacterial additive, **Pro-Tech** White Mineral Oil provides an excellent secondary layer of **protection against harmful food-borne pathogens**.

### The MICRONOX Antibacterial Difference

Mainca Lube **Pro-Tech** White Mineral Oil is formulated with our patented **MICRONOX** Antibacterial Technology. The Addition of **MICRONOX** allows Mainca Lube products to far surpass ordinary lubricants by offering a secondary line of defense in the war on harmful food-borne pathogens such as Listeria, E-coli and Salmonella. Mainca Lube's exceptional lubricating performance, enhanced with the antibacterial properties of **MICRONOX**, make Mainca Lube **Pro-Tech** White Mineral Oil, the first, the finest, and the only choice for the food and beverage industry's demanding lubrication needs.

## Pure White Mineral Oil

Mainca Lube **Pure White Mineral Oil** is manufactured using only the highest quality pure, sanitary mineral oil available. Mainca Lube's superior High Quality Oil provides **exceptional lubrication** with long lasting performance. Mainca Lube **Pure White Mineral Oil** is USDA and FDA rated "H1" and "3H" for **Safe DIRECT Food Contact**. Mainca Lube's convenient aerosol can eliminates the possibility of oil contamination and insures an even smooth coating of oil on all surfaces. In addition, Mainca Lube **Pure White Mineral Oil** provides an excellent film barrier to **facilitate equipment clean-up, prevent corrosion** and **minimize flash rust**.
